Dr. Heather Karls

Dr. Virginia Kampmeier

730 Cleveland Avenue South • St. Paul, Minnesota 55116 • Telephone: 651-699-8610 • Fax: 651-699-1207

To insure your first visit with us is a pleasant one, here are the procedures you can expect during the next 45-50 minutes with us:

1. PAPERWORK

Please complete the few sheets of paper work to help us get to know you. The doctor will use this information to help formulate your care program. If you have any questions, please feel free to ask us.

2. Consultation:

You will meet with one of our doctors, who will review your health history and determine if yours is a chiropractic condition.

3. Physical Examination and X-rays:

Standard physical, orthopedic, neurological and chiropractic tests will be performed to determine the cause of your condition. Necessary x-ray views may be taken depending on each individual case. Your history and examination help the doctor to determine the necessity of x-rays.

4. Correlation:

Based on your consultation, examination and / or x-rays the doctor will determine if and when treatment should begin and what type of treatment plan would be best for your particular case. If care is needed today, the doctor will give you a brief report so that you understand your condition and the treatment needed so as to bring you relief as soon as possible.

5. Treatment:

Treatment will be individualized. Patient care is our top priority and we will not generalize your determined condition.

6. FUTURE VISITS:

Your first visit is complete. Plan to spend about 30 minutes on your next visit for a report of your examination findings and treatment. Typical visits usually last 15 to 20 minutes.

If you have any questions please do not hesitate to ask. We are here to help.
